1. Claim 13 is directed to a recording medium in which a computer program is recorded, being read by the computer and installed (stored in computer memory) to perform a process, which is a statutory subject matter.
2. Claim 13 is a step plus function for performing object recognition without the recital of structure, material or acts in support thereof, and complies with the conditions of 35 USC 112, 6th paragraph. Claim 13 shall be constructed to cover the corresponding structure, material or acts described in the specification on page 22 line 3 to page 30, line 14, Figs. 11-17 and equivalents thereof.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claims 13-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
5. Claim 13 recites the limitation "the both" in line 9. There is insufficient antecedent basis for this limitation in the claim.
6. Claim 13 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
